The NFHS has created a free Play-by-Play Announcing course, which demonstrates how to professionally prepare for a game as a play-by-play announcer, how to successfully work with an analyst or reporter, how to use proper tone and inflection, and the important aspects of play-by-play announcing during a live broadcast. School sports and performing arts need our support now more than ever.

The NFHS and NIAAA have produced PSAs that will help. They cover the biggest topics surrounding school sports and performing arts that our RIIL community needs to hear—fan behavior at athletic events, student mental wellness, the value of participation, recruiting high school officials, and more.

Plus, for the first time ever, this year's package includes both radio AND video PSAs! These PSAs are for everyone, no matter how you're connected to school sports and performing arts!

· **Radio station personnel:** Please download and broadcast the PSAs on your station as often as possible.

· **School personnel:** Please download and play the PSAs at athletic events, during school announcements, on PA systems and telephone hold lines, and much more.
